EVERLAST

- Features**
- Best user-friendly battery customized to suit all type of H-UPS / inverter applications.
 - Special grid alloy for low self discharge, low maintenance and higher shelf life.
 - Advanced paste formulation for better discharge performance and faster charge acceptance characteristics.
 - Thro' partition ICW connection for short electrical path and low internal resistance for optimum performance.
 - Heavy thick positive plate design for excellent discharge performance and longer life.
 - Microporous ceramic float guide vent plug for lesser topping up frequency and easy maintenance.

Specification *

Model	Volt	Capacity C20	Bench charging	Dimensions (in mm)			Approx. Battery weight with acid (Kgs)
				L	W	H	
BE 1000	12	100	5	511	183	245	32
BE 1350	12	135	7	503	220	285	47
BE 1500	12	150	8	518	275	285	56
BE 1800	12	180	10	518	275	285	61

Specific Gravity at fully charged condition 1.250 ± 0.005 . Top charge on line voltage will be 15.8 to 16V approximately.
