GALAXY

- Features**
- Micro-porous ceramic float-guide vent plug : environment-friendly and free from acid fumes, indicates water level.
 - Special tubular positive-plate design for long life in deep discharge cycle.
 - Special alloy for lower electrolyte consumption.
 - DARAMIC (France) PE envelop separator : by virtue of high-porosity, low electrical resistance and excellent oxidation resistance, serves as a perfect separation medium to increase products life.
 - Flat-negative plate with special additives and expanders for better charge and discharge cycle.
 - Superior active material for excellent discharge performance.
 - Pure laboratory grade additives and chemicals used for reliable output.
 - Charged at factory by computer controlled pulse rectifiers, ready for installation.
 - Life - 5 years plus.

Specification

Model	Volt	Capacity C20	Bench charging	Dimensions (in mm)			Approx. Battery weight with acid (Kgs)
				L	W	H	
BG 200	12	100	5.0	504	190	356	46.5
BG 300	12	120	6.0	504	190	356	48.5
BG 400	12	135	6.5	504	190	356	50.5
BG 500	12	150	7.5	504	190	356	51.5

Bench charging :

Charged batteries stored/unsold/not used for period of 1 month shall be given a recharging @ 5% of C20 capacity rate current. The battery is considered as fully charged as the CCV value reaches 15.5 - 16.0Volts.
